CRITICISM.

Time and again we have noticed the want of management in different departments of the Government, but especially in the matter of road repairing. It has been a constant matter of adverse comment in all the journals published here. Yet we do not see any endeavor on the part of the Government to attend to these matters. They seem to be perfectly indifferent to criticism and to go on their own sweet way without reference to what has been said. And when they have, in deference to public opinion, done anything, they endeavor to conceal their indebtedness and say that it is of their own motion.

Now this is hardly right. If they do wrong they must expect criticism and should own up when they are fairly hit. People would think more of them and uphold them better if there wasn't this indifference to criticism and disingenuous creeping out of acknowledging what it has led them to do. We trust that they will take warning.

HAWAIIAN MINSTREL TROUPE.

Many of our readers will remember the company of local amateur theatricals, designated by the appellation of "The Hawaiian Amateur Minstrel Troupe," which existed and flourished in Honolulu three or four years ago. They gave a series of mirth-exciting, side-tearing entertainments, at the old Theatre Royal, the memory of which is still green in many minds. Their reign was brilliant, but their life, as a company, was short. They became disintegrated and dissolved by reciprocal consent, and lovers of comicality and drollery were sorry. Those sorry people will be glad to learn that the defunct company is coming to life again. Some of the old blood has mingled with fresh blood, and a numerous troupe, with hopes and prospects of a vigorous life, is the result. The new company, which has sprouted from the ashes of the old, assumes the name of "The Hawaiian Minstrel Troupe." It numbers about twenty members, and is at the present time actively rehearsing in preparation for its first appearance before the public, which will occur shortly, and of which due announcement will be made.

LOCAL AND GENERAL ITEMS.

To-day is the shortest day in the year; but we don't have to work any less for that we know.

The Honolulu Athletic Association will give a Subscription Ball in their new building on the 29th.

This evening, at half-past six o'clock, there will be a Christmas Tree at the Bethel for the Sunday School children; afterwards there will be an entertainment for all.

YESTERDAY was a very uneventful day nothing of interest had occurred up till 3 o'clock in the afternoon, and our reporter was at his wit's end for news.

We heard yesterday that expresses and busses are in the habit of going across the long bridge at Waikiki opposite Mrs. Lemon's place at a thundering rate. If this is so why

isn't there some one there to see that the regulation walk across is strictly adhered to by everybody?

We hear that Mr. Seal has a magnificent Wattle tree growing at his residence at Makiki which is now bearing seed. He will be happy to supply those who wish to try the tree with a little seed.

It is rumored that a gentleman who will arrive here shortly from San Francisco is to be taken into the Ministry as Minister of the Interior, and with co-ordinate powers with the Premier.

PREPARATIONS are being made for Christmas on every side, but we notice by the prices obtained at the evening auctions that people are disposed to be economical in their distribution of Christmas boxes.

The culvert on the Palama road, of which correspondents have complained at different times, has been properly attended to—not merely repaired, but entirely renewed, the old coral stones having been removed and the entire culvert constructed of bricks.

Mr. H. J. Nolte is raffling some self winding watches and very fine meerschaum cigar holders. The drawing will take place on Christmas day whether all the tickets are disposed of or not. These watches are little gems in their way, and we advise our friends not to miss the opportunity.

To-morrow night the Library and Reading Room Committee will give a Christmas entertainment in their rooms. The programme is not fully decided on, but it will consist of Christmas carols read by several persons, a selection by the Quintette Band and a vocal solo. The public are cordially invited and admission will be free.

As it is not an uncommon thing for watches to be stolen, and by their passing through several hands the police are unable to trace them, it would be well for all persons who have watches offered them for sale, or pledge, or by other means, have possession of them, to communicate the fact at the Police-station. This could easily be done by telephone.

We notice in yesterday's *Gazette* another instance of the benefit of insuring one's life. The late C. T. Dillingham insured his life for \$2,000 in the Pacific Mutual Life Insurance Co. of California, for which Mr. R. W. Laine is general agent here. He had only paid two premiums, amounting to \$3.72, when the fatal accident took place. We notice this as being a splendid instance of the value of life insurance to everybody.

WHILE the hearse belonging to Mr. C. E. Williams, was returning from the Cemetery yesterday afternoon, the bit broke and the horse started off. Both of the hind wheels came off when opposite the Palace. The driver managed to turn the horse into the fence of the Government buildings. Nothing serious was done in the way of damage. The driver is to be complimented on his coolness.

A SINGULAR ACCIDENT.

THE *Wangaratta Dispatch* narrates the following particulars of a terrible accident which occurred at Eldorado, Australia, Nov. 23rd: "It appears a girl, aged about 10 years, daughter of Mr. McGregor, was standing on the road when a person on horseback was passing, and before the poor girl could get out of the way the animal stumbled and fell on top of her. In stumbling the animal somehow threw up a lump of a stick four feet long and about the thickness of a man's wrist. In falling the blunt end of the stick was in contact with the horse's shoulder, the sharp end meeting the girl's right breast. The weight of the falling sent the stick right through the poor child's body, entering at the right breast and coming out at her back by the shoulder, and then entering the ground, pinning her to the earth. The mother of the poor girl, after several ineffectual attempts succeeded in dragging the stick out of the poor little sufferer's body, the end being still covered with earth after coming right through, the precaution of cleaning the end before drawing it not having been thought of. So great was the force which sent the wood through the child's body that all the bark was peeled off. Dr. Haley did all in his power for the poor little sufferer, but considers the case a hopeless one."
